

ACADEMIC REPRIEVE REQUEST

NAME _____ ID _____ DATE _____

Semesters or Terms Requesting to be Reprived:

Extenuating Circumstances Causing Poor Grades:

The following conditions must be met for the reprieve to be granted:

1. At least three years have elapsed between the last semester(s) being reprived and the reprieve request date.
2. Prior to requesting Academic Reprieve, student must have earned a GPA of 2.0 or higher with no grade lower than a "C" in all regularly graded course work (a minimum of 12 hours) excluding activity or performance courses.
3. Must be currently enrolled.

This request will be for all courses completed before the date specified in this request. Course work with a passing grade included in a reprived semester may be used to demonstrate competency in subject matter. However, the course work may not be used to fulfill any credit hour requirements.

I understand that if my request for academic reprieve is granted, all courses will remain on my academic transcript and all regularly graded courses will be included in calculating my cumulative grade point average. Reprived courses will be excluded in calculating my retention/graduation grade point average and the Cameron grade point average; however grade point calculations for any other purpose are not affected by the reprived courses.
